LORD ROBERTS LAUDED

Return of the Military Favorite From South Africa.

LAUREL ARCH AT ROYAL PALACE.

Queen Made Him an Earl and Conferred Upon Him the Order of Knight of the Garter—Field Marshal's Daughters Honored.

Cowes, Isle of Wight, Jan. 2.—The steamer Canada, having Field Marshal Lord Roberts on board, anchored off Osborne at 11.45 a. m.

Ships in the roads were gaily dressed the sea front was elaborately decorated with bunting, and venetian masks with festoons adorned the route to Osborne House, at the entrance of which was erected an unique tribute of the queen's appreciation of the field marshal's work, in the shape of an arch of laurel. This was the first time such an arch had ever appeared there in honor of any subject of her majesty.

A large concourse of people awaited Lord Robert's arrival at Trinity pier and Lansing. The field marshal landed from the royal launch at 3:30 p. m., which was the signal for deafening shouts of welcome. Princess Beatrice, in her capacity as governor of the Isle of Wight, and the Duke of Connaught, representing the queen, awaited Lord Roberts, whose arm was still in a sling as a result of being thrown from his horse in South Africa. He was warmly greeted and the party started in royal carriages for Osborne House. The route was lined with troops and thronged with cheering sightseers.

The queen bestowed an earldom on Lord Roberts with a special remainder for his daughters. He was also made a Knight of the Garter.

Lord Roberts stopped on his way at the town hall of East Cowes, where eulogistic addresses of welcome were presented. Replying to the addressers, Lord Roberts said he regretted his return was not accompanied by immediate peace, but, he added, while he feared hostilities would continue for some time, he had implicit confidence in Lord Kitchener, and had no fear regarding the outcome. He then resumed his drive and entered the grounds of Osborne House by the Prince of Wales' entrance, and proceeded up the troop-lined avenue to the castle. After a hearty reception in the council chamber by a number of princes and princesses, Lord Roberts was ushered into the presence of Queen Victoria. His audience of her majesty was quite private.

Boers Continue Operations.

Cradock, Cape Colony, Jan. 2.—A detachment of Boers entered Roodehoogte, southward of Middleburg, Jan. 1. It is believed this force is going to Graaf Reinet. The telegraph lines are cut between Carnarvon and Somerset west and Steynsburg and Maralsburg. Reinforcements reached Middleburg.

Martial Law Extended.

Cape Town, Jan. 2.—A special meeting of the cabinet was held here at which, it is understood, a decision was reached to make further extension of martial law. A telegram from Carnarvon reports that the Boers are looting farms along their route for supplies.

Boers Capture Cavalrymen.

Colesburg, Cape Colony, Jan. 2.—A party of 250 Boers captured 14 men of Nesbitt's horse 50 miles southeast of Colesburg. The Boers since increased to 800, and appeared near Weltevreden and are driving off the stock.

Pat Wasn't Aboard.

Liverpool, Jan. 2.—Investigation of the report that Pat Crowe, the alleged leader of the gang of Cudahy kidnapers, was a passenger on the British steamer Michigan, which left Boston Dec. 22 for this port and just arrived, failed to verify the story. The Michigan carried no passengers, but in addition to her crew, she had on board a number of cattlemen. None of these would acknowledge himself as Crowe, and as the Liverpool police had not been notified of the expected arrival of the suspected man they did not examine the cattlemen.

Gas May Give Out.

Detroit, Jan. 2.—Manager Walbridge of the Detroit City Gas company stated that it is his belief that the supply of natural gas will temporarily fail if the present cold snap continues for 24 hours, and advises customers to provide other fuel at once. The company serves over 4,000 families with gas from the Canadian fields, and much discomfort and possible suffering is expected.

Assaulted by Footpads.

Powell, O., Jan. 2.—A. D. Wilcox, a farmer, was assaulted by footpads at the railroad crossing just outside of town, and was seriously injured. The highwaymen got 60 cents.

CANADIAN INDEPENDENCE.

Club at Montreal Wants to Cut Loose From Great Britain.

Montreal, Jan. 2.—For some time there has been discussion about the doings of an alleged "Independence" club in Montreal, but the managers of the new movement did not appear to judge the time opportune for appealing to the public. A good deal of interest was added to the movement by the fact that during the Paris exposition a large number of young men appeared in Paris wearing "Independence of Canada" buttons, and an attempt was made to connect J. I. Tarte and J. X. Perrault, the Canadian commissioners, with the move because a number of independence buttons were among the spoils recovered from men who had burglarized Mr. Perrault's house. Mr. Perrault explained, however, that these buttons were about 15 years old and that he had changed his views since they were made. Now the Canadian Independence league has issued its platform and constitution, but has declined to publish its list of officers and members. The constitution consists of 18 clauses, some of which are dissolution of the colonial relation and declaration of independence; new federation, to be known as United States of Canada; provinces to become states with sovereign power; federal authority to have only such powers as shall be specially delegated to it by sovereign states; no power shall be delegated to the federal authority except with the assent of the majority of delegates of each of the sovereign states convened in national assembly; creation of a state militia under command of a federal officer; universal suffrage; the great highways and services (railways, canals, telegraph, etc.) to be public property. Other clauses deal with changes in laws along socialist lines.

Boiler Explosion.

Cincinnati, Jan. 2.—The boiler at the Queen City Marine Railway company exploded by reason of frozen pipes, and Frank McKinley, foreman, was probably fatally injured. Frank Woodward, the engineer, and Joseph McClelland, the carpenter, were seriously injured. These men were pinned under debris, and in imminent danger from fire, but were rescued by heroic efforts of workmen of the company.

Perished in a Storm.

London, Jan. 2.—P. Collins, who arrived at Fermoy, Ireland, from America, Dec. 27, has been found dead on the mountainside almost within sight of his father's home. It appears that the traveler was unable to secure a conveyance from Fermoy to the home of his father and started to walk there, but was overtaken by the storm, succumbed and died of exposure. He had £426 in his pocket.

Horse Balked on the Crossing.

Chicago, Jan. 2.—Mrs. John Powell of Chicago Heights was killed instantly and her husband fatally injured by being struck by a Chicago and Eastern Illinois passenger train while driving across the tracks near Crete. Where the accident occurred there is a sharp curve in the road. The horse which Mr. Powell was driving balked and died of exposure. The engine crushed the buggy.

Head Split Open.

Lyneburg, Tenn., Jan. 2.—Eugene G. Smith, a well known farmer, was found dead in bed with his head split open by an ax. The tragedy occurred at the residence of W. R. Williams near Loies in Moore county. The identity of the assassin is unknown.

Poisoned by Mouth Organ.

Washington C. H., O., Jan. 2.—Senna Ford, 16, son of Mrs. Edward Ford, was poisoned by the contact of brass on a harmonica with his sore lips and he died of blood poisoning. His mouth and head swelled to enormous size.

Killed at the Bridge.

Bellair, O., Jan. 2.—Joseph McMullen, 24, was killed by a Baltimore and Ohio train at the West Virginia approach to the Ohio river bridge. He was single and lived with his parents in this city.

Little Girl Fatally Burned.

Another London Failure.

London, Jan. 2.—There was another failure on the stock exchange, that of J. R. L. Ogilvie.

After the governor's message had been presented in both branches and some minor business had been transacted both bodies adjourned to Jan. 14. Colorado Legislature.

Albany, Jan. 2.—Both branches of the state legislature convened at 11 a. m. The feature in each branch was the reading of the message of Governor Odell. Senator Timothy E. Ellsworth of Niagara county was elected president pro tem of the senate, the Democratic members voting for Senator Thomas F. Grady of New York. S. Fred Nixon was elected speaker of the assembly; the Democrats voted for Daniel S. Frisbie of Schoharie county. Both houses adjourned to Jan. 9.

Michigan Legislature Organized.

The amount of United States bonds on deposit to secure circulation notes amounted to \$312,832,830, and to secure public deposits \$99,946,670.

Andrade's Disappearance.

Astoria, Or., Jan. 2.—The fine British ship Andrade of 2,394 tons, appeared off the Columbia Dec. 11 and Pilot Cordner was taken aboard. A great storm arose at that time and the Andrade was driven to the north. She has not been seen since, and it is feared she has met a fate similar to that of the British ship Cadzow Forrest, which disappeared with Pilot Grassman five years ago and was never again heard from. The revenue cutter Perry has gone in search of the Andrade. The British ship Rathdowne, 91 days out from Yokohama for this port, is long overdue, and it is feared she has been sunk by a typhoon off the Japanese coast.

Walker Will Contest.

Bristol, Va., Jan. 2.—General James A. Walker, the Republican candidate for congress, who was defeated on the face of the returns by Congressman W. F. Rhea of the Ninth congressional

Virginia district, has filed notice of a contest. Taking of evidence will begin at Abingdon, Va. It is feared trouble will result at Bristol similar to that of two years ago, when evidence is heard here. At that time a general shooting melee occurred in which three men were shot.

WITNER WEATHER.

Snow and Cold in the Far West And the Consequences.

Walsenburg, Colo., Jan. 2.—The weather in this vicinity is the coldest in several years. This condition was preceded by a snowstorm lasting several days. The present cold spell will cause the loss of considerable stock on the range. Reports are coming in of heavy losses of sheep. One herd ranging east of this city is reported to have lost 50 per cent. Losses of cattle are also reported.

Stranded in a Snowstorm.

St. Johns, N. F., Jan. 2.—The British ship Ivydene, Captain Millburn, from Hamburg Dec. 15 for Wilmington, N. C., went ashore during a snow storm at Lamancha and is likely to become a total loss. The crew is safe, but had a frightful experience.

Snowfall at Vancouver.

Vancouver, B. C., Jan. 2.—In this city 15 inches of snow covers the streets as a result of a storm which has been in progress during the past 24 hours and still continues.

Puget Sound Snowbound.

Seattle, Wash., Jan. 2.—The Puget sound country is hidden under a blanket of snow, which commenced Tuesday. This is the second snowstorm of the winter.

Briefs Filed.

Washington, Jan. 2.—The first briefs to be filed in the cases involving the relation of the United States to their insular possessions, which are to be argued in the United States supreme court next week, have been submitted.

There are eight of the cases and briefs were filed for the claimants in the cases of Carlos Armstrong and of Samuel B. Downes, and raise questions similar to the issue in the Neely extradition case.

Structural Iron Workers Strike.

Pittsburg, Jan. 2.—Structural iron workers, numbering 1,000, struck for an advance of six cents per hour in wages and a 9-hour day. Not a single man is working and a number of important contracts are tied up. Work on the new union station is entirely suspended. A committee of strikers left for New York to confer with President Roberts of the American B. & R. company.

Faithful Performance Guaranteed.

Washington, Jan. 2.—Following at an interval of one day, close upon his announcement that the Chinese emperor had decreed the acceptance of the Peking agreement, Minister Conger cabled the state department under date of Jan. 1, that the next step had been taken and that the ministers had been notified formally not only that the agreement was accepted by the Chinese government, but that the government felt able to guarantee a performance of the conditions imposed.

Fatal Salute.

Tien Tsin, Jan. 2.—Ten Germans were killed and nine wounded at Le Tung Jan. 1 through the firing of a salute with a defective cartridge.

Quick Trip From Dawson.

Vancouver, B. C., Jan. 2.—The steamer Victorian arrived from Skagway with 10 passengers and mails from Dawson. They left Dec. 16, making quick time over the ice. Mrs. Ballinger, wife of Dr. Ballinger, who left Dawson Dec. 6 for Skagway and completely disappeared, was one of the passengers. She had heard nothing of her husband, who it is feared met with foul play, and she is on her way to seek assistance of relatives in Seattle. She will immediately return north to prosecute the search. The wrecked steamer City of Topeka is reported to be in good shape and probably will be successfully raised.

President Invited.

Washington, Jan. 2.—United States Surveyor General Gleaves of California called at the White House and invited the president to attend the annual banquet of the Ohio society of California on the occasion of his visit to the coast to attend the launching of the battleship Ohio. The president assured Mr. Gleaves that he would attend if nothing intervened to prevent. Representative Standon of Texas also called and invited the president to visit San Antonio, Tex., on his California trip. The president will probably do so, and if able he will also visit Austin, Tex.

Silver Increased in Value.

Washington, Jan. 2.—The quarterly estimate of the value of foreign coins made by the director of the mint shows that the value of silver has increased during the last three months 2.41 per cent. This increase is accounted for by the abnormal demand for Mexican silver in China.

GOODNOW'S OPINIONS.

Believes Satisfactory Settlement Will Be Reached in China.

MISSIONARY OUTLOOK IN THE ORIENT.

Progressive Chinese Are Friendly to United States and Do Not Approve The Boxer Hostilities—Good Word For American Troops.

San Francisco, Jan. 2.—John Goodnow, United States consul general to China, with residence at Shanghai, arrived in this city on the City of Peking. After a brief visit to Washington he will spend his 60 days leave of absence at his old home in Minnesota. In speaking of the probable outcome of the Chinese troubles, the consul general said: "I believe satisfactory settlement will be reached along the lines laid down by the president. Those Chinese who are working for the integrity of their country are friendly toward the United States, and are ready to assist in a prompt and amicable settlement. The uprising was by no means a popular move with the great mass of the peaceable Chinese population. From the very first they deplored the acts of their fellow countrymen." In regard to the missionaries and their position in China, Mr. Goodnow thinks there

THE U. S. transport Grant has arrived at San Francisco with the remains of 398 officers, soldiers and civil employees of the War Department, who died in Hawaii, the Philippines and China. Most of these poor fellows lost their lives in carrying out the President's policy of "benign assimilation."

MASON County's faithful and efficient Superintendent of Public Schools, Mr. G. W. Blatterman, is announced in this issue as a candidate for re-election, subject, of course, to any action of his party. Mr. Blatterman has made a most enviable record as Superintendent, and that the people of Mason County recognize this fact and appreciate it was demonstrated in his former races for the position. His official record speaks for itself, and is a better and stronger recommendation than any words that could be written. Mr. Blatterman's many friends will take great pleasure in rallying to his support and doing all they can to help him out in his present contest.

Mr. E. Swift, principal of District School No. 4, Sixth ward, has entered the race for the Democratic nomination for County Superintendent of Schools, his formal announcement as a candidate appearing elsewhere. Mr. Swift has been identified with the public schools of this city for several years and had taught for some time previous to coming to Maysville. His long experience in the school room has especially fitted him for the duties of the office he seeks. Mr. Swift is an enthusiastic Democrat, his pen having been frequently put to excellent use in advocacy of the claims and doctrines of the party. If the people of the county should honor him with the Superintendency of the schools, the office would be in safe and competent hands.

It was stated in these columns some time ago that Mr. Thos. L. Best would be a candidate for the Democratic nomination for Sheriff. His formal announcement appears to-day. Mr. Best is a successful farmer, and, in addition to the management of his large farm, has long been prominently identified with the leaf tobacco market of this section of the State. This has brought him in close touch with the people of the county, and given him a very large circle of warm friends who will take great pleasure in helping him out in his present race. His qualifications for the office are unquestioned, and the same can be truthfully said as to his Democracy. If the people should honor him with this position, the office would be in hands that would maintain the high reputation the Sheriffs of Mason County have always enjoyed.

NO PRIZE FIGHT HERE.

The Mayor has sanctioned the bout and the fighters will be guaranteed protection. The club has the support of all the prominent business men of Maysville.

The above appeared a few days ago in an interview in the Cincinnati Enquirer with Edward Breen, who claimed to represent the "Washington Athletic Club, Maysville, Ky., and who was down there "looking up boxing talent for a bout at Maysville, Jan. 20th."

Mayor Stalleup authorizes the BULLETIN to say there is no truth in the statement so far as he is concerned; that he has no authority to license such contests, and would not do so if he had such power. Moreover he wants it distinctly understood that no such bouts or contests will be given in Maysville if he can prevent it.

There is about as little truth in Mr. Breen's statement concerning "the prominent business men" as there is in his reference to the Mayor.

Miss Allie Collins has been selected as sponsor for the Jno. C. Breckinridge Commandery of Flemingsburg for the triennial conclave at Louisville next August.

Brought Good Fortune.

A small item in his own paper lately brought amazing good fortune to Editor Chris Reitter, of the Saginaw (Mich.) Post and Zeitung. He and his family had the grip in its worst form. Their doctor did them no good. Then he read that Dr. King's New Discovery for Consumption, Coughs and Colds was a guaranteed cure for la grippe and all throat and lung troubles; tried it, and says: "Three bottles cured the whole family. No medicine on earth equals it." Only 50c. and \$1 at J. Jas. Wood & Son's drug store. Trial bottles free.

SHIP BUILDING.

Boom Refutes Arguments of the Subsidy Grabbers.

[Philadelphia Spe. New York Evening Post.] If any patriotic American, anxious for the restoration of this country's merchant marine, and misled by the arguments of the subsidy bill schemers into believing that Government largess is necessary for its rehabilitation, will visit the shipyards of the Delaware river, he will be speedily convinced of his error. Never have these yards been busier than now and never have they been more prosperous.

All the old ones are crowded with work, and a new one has appeared in the field. This is the New York Shipbuilding Company, which is popularly supposed to be backed by Henry C. Frick and Standard Oil interests, and which, during the past two years, has spent several million dollars in the acquisition and improvement of a large tract of Delaware river front in South Camden, opposite Philadelphia. Backed by ample capital, the company has designed its plant in the most scientific manner, and apparently intends to become a competitor of the Cramps and Newport News yards in the building of the largest sized vessels. Bids were put in by the company for the armored battleships and cruisers, for which the tenders were recently opened at Washington, but its figures are believed to have been too high to secure the contract.

The company now has about 1,400 men at work, and has contracts for four large boats, three of which are for the American-Hawaiian Steamship Company, plying between New York and San Francisco and Honolulu. When the yard is in complete order the number of employees will be largely increased. Through the influence of H. C. Frick it is claimed that the company will be in a position to secure much of its material cheaper than the other yards.

Just at present these are on the highest wave of prosperity. Besides the Cramps, the yards of the Neale & Levy Company in this city, of John Deague & Sons, Camden, the Harlan & Hollingsworth Company, Wilmington, Del., and the Roach shipyard at Chester, are all extremely busy on new work, and seem to be making money without any artificial stimulus from subsidy bills.

USE OF PARIS GREEN.

Law Should Be Passed To Stop the Practice of Putting It on Tobacco.

[Cincinnati Tobacco Plant.]

This question will boil up again whether you wish it or not. Of the new crop that has made its appearance upon the breaks there is one quality they had in common and that was that they gave palpable evidence of Paris green treatment. This fact substantiated the theory that it is not all talk, this agitation against the use of this poison. There are some growers who scoff and laugh at the idea, when the question of Paris green was broached and ridiculed the assertion that there was such general use made of the article in spraying tobacco. Well, no matter what they scoff or laugh at or how much they may choose to ridicule, the fact nevertheless remains potent that this poison is evident on almost every hogshead of tobacco that is sampled.

Now, there is no need of arguing the subject, or going over the ground again, but the fact remains just the same, that this is one of the most criminal practices perpetrated and committed in a civilized community. Were tobacco an article to be used in the manufacture of building material or wearing apparel its treatment by Paris green would not be so strenuously opposed; but when it is remembered that tobacco is chewed by man, used almost as a food, it can be seen why this method of endangering a man's life is deserving of the most severe condemnation.

In answer to the objections raised by the growers let us ask the question, suppose they had to feed their tobacco thus treated with Paris green to their cattle or horses? Do you think they would be so prolific in the use of this poison? Not very probably. Is human life less valuable than that of horses or cattle?

STATE FINANCES.

Auditor Coulter Says Kentucky's Treasury Is in Splendid Condition—Some Figures.

FRANKFORT, Ky., Dec. 31.—According to Auditor Gus Coulter there is not the least need of an extra session. The State, he says, is in a "booming" condition, financially, and not bordering on a state of bankruptcy as reports from here in the last few months have indicated.

Mr. Coulter proves his statement by figures, which may be taken with or without salt, according to individual preference. He first starts off by saying that there is to the State's credit the magnificent sum of \$818,825.95. Out of

this there must be paid during the month of January the following amounts:

For charitable institutions..... \$145,000.00
For schools..... 295,000.00

Total..... \$404,000.00

To balance this, Mr. Coulter says the State will collect during the month of January the sum of \$300,000 from the railroads for taxes. This will leave the deficit for the month only \$140,000. Subtracting this from the \$818,825.95 noted above as to the State's credit, there is left the sum of \$678,825.05. Mr. Coulter says the average running expenses of the State are \$120,000 per month and that there is no necessity of an extra session.

The quarterly statement of Mitchell, Finch & Co.'s Bank, published in this issue, shows \$120,595.96 individual deposits.

Miss Lizzie Tomlin, aged about eighteen, died last week at her home near Murphysville, of typhoid fever, her funeral taking place Friday. Her mother fell a victim to the same disease a month or two ago.

PITHY POLITICAL POINTS.

[By Robert Taylor.]

Taylor may now be said to be a law unto himself.

Wonder what Taylor will have to put into that law partnership besides his reputation?

That new law firm at Indianapolis will start in with plenty of business on their hands if they hold on to Taylor.

There'll be no use of that new law firm doing any great amount of advertising so long as Taylor stays with them.

Wonder who's going to vouch for Taylor in his new venture as to the matter of honesty, probity and good demeanor?

Taylor found that Republicans couldn't be depended upon to do anything for him, so he started in business for himself.

The reason Taylor didn't continue in the life insurance business is, probably, because he didn't regard lives as of sufficient importance.

As long as Taylor has come out as a lawyer Mount, or his successor, may reason that he is able to take care of himself and won't need their protection any longer.

If that new law firm at Indianapolis has any business outside of the State there's one thing sure, they can't delegate Taylor to attend to it, as he's afraid to risk his career outside of "Inj-

It's to be hoped that no one shall ever be so ludicrous as to mention any point of law bearing on the subject of extradition to that firm in Indiana, of which Taylor is a member, as, of course, they would be too modest to argue such a subject.

We have it from good authority, says a correspondent, that Prosecutor Franklin says he will hang Taylor when he gets him to Kentucky. This will not be very assuring to the Indiana home, and will have a tendency to make him more dilatory about returning.

While Republicans are so busy in making amends to Yerkes for his discomfiture and defeat in November isn't it pertinent to ask what they propose to do for Taylor to make up for the shameful and ungrateful manner in which he was used in not receiving a renomination for the Governorship?

Surely that great law firm with which Taylor has allied himself at Indianapolis won't be afraid to measure swords with poor, despised and much hated Tom Campbell. But, we suppose, they will need to have swords to reach from Indianapolis to Frankfort, as they wouldn't care to risk their carcasses so far from the land of the whitecaps.

Some newspapers are raising a great ado about what they are pleased to term "Tom Campbell's questionable methods of obtaining evidence." Now, nothing can be evidence that is not the truth, and if what Mr. Campbell obtains comes up to this requirement, no one has any right to question his methods. The trouble, though, is that Mr. Campbell has shown that Republican officials were the agents of Governor Goebel's assassination, and the Kentucky Republican party has been made to suffer in fame thereby; and herein lies the true reason of all Republican hatred and animosity to Campbell.

Now, there is no need of arguing the subject, or going over the ground again, but the fact remains just the same, that this is one of the most criminal practices perpetrated and committed in a civilized community. Were tobacco an article to be used in the manufacture of building material or wearing apparel its treatment by Paris green would not be so strenuously opposed; but when it is remembered that tobacco is chewed by man, used almost as a food, it can be seen why this method of endangering a man's life is deserving of the most severe condemnation.

HOW TO STOP IT.

A Rigid Enforcement of These Statutes Would Soon Stamp Out the Smallpox in Kentucky.

The paragraphs below are taken from the General Statutes of Kentucky. A rigid enforcement of these laws would result in ridding the State of the smallpox:

Section 1608. All persons of the age of twenty-one years and over, who have not been vaccinated, or, if vaccinated, not successfully, shall, within three months after this revision takes effect, procure their own vaccination or revaccination, as the case may be.

Section 1609. All parents, guardians and other persons having the care, custody or control of any child or children, or who may have in their employ any minor or minors, shall have the same vaccinated; and every parent, guardian and person that may have the care, custody or control of any child born hereafter, shall have said child vaccinated within twelve months after its birth, or after it comes under his or her care, custody or control.

Section 1610. All persons coming into this State to abide or become citizens who have not been vaccinated, or who may have children under their care or control that have not been vaccinated, shall procure the vaccination of themselves and said children within six months after coming into the State.

Section 1615. Every person superintending a hospital or other place where a patient having the smallpox is confined, shall profit all information therewith of persons not having had the disease, and shall, before discharging a patient, or suffering him to be removed, take due care that his person is thoroughly cleansed, and his clothes, such as have not been infected with the disease, under the penalty of \$100 ten dollars.

Section 465. If any person who has never had the smallpox shall go into a house where the disease is, or associates with a person who is afflicted therewith, any Justice of the Peace, on due proof of the fact, may cause such persons to be conveyed to some house or place in the county where the disease will not spread, there to remain until he shall have gone through the disease, or until a physician shall certify that he will not take the same. If such a person be not able to pay the expense of his nursing the county shall pay the same.

Section 467. If any person shall willfully endeavor to spread, or propagate the smallpox, he shall be subject to be indicted and fined the sum of \$500, or be imprisoned for six months.

Section 468. Any person who, having reason of the time to believe himself afflicted with the smallpox, or to voluntarily go upon any public highway or street, or to any place at which people are accustomed to congregate, or who shall enter or go on any steamboat, railroad car or other public conveyance, and all persons who shall knowingly aid any one thus to offend, shall be guilty of misdemeanor, and upon conviction shall be fined not less than \$100 nor more than \$1,000.

A Deep Mystery.

It is a mystery why women endure backache, headache, nervousness, sleeplessness, melancholy, fainting and dizzy spells when thousands have proved that Electric Bitters will quickly cure such troubles. "I suffered for years with kidney trouble," writes Mrs. Phebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not dress myself, but Electric Bitters cured me, and, although seventy-three years old, I now am able to do all my housework." It overcomes constipation, improves appetite and gives perfect health. Only 50c. at J. Jas. Wood & Son's drug store.

Mrs. America Dayton Rogers, of Mt. Tabor, Robertson County, was burned to death. She attempted to carry a pan of burning grease from the stove out of the kitchen door. Her clothing ignited and she died in excruciating agony. There have been several tragic deaths in Mrs. Rogers' family. A few years ago her father was killed and two of her sister's children were drowned at the same time in a tub of water.

The Boyd Circuit Court meets next Monday, when Gibson, who tortured his stepdaughter to death, at Catlettsburg, will be taken back for trial. The Boyd County authorities say they will not ask for troops, as they have no fears of a mob lynching Gibson.

Messrs. R. M. Willett and W. L. Nicholson are again in charge of the St. Charles Hotel and will aim to make it one of the best along the Ohio.

We Try to Appreciate Your Trade.

By an honest effort to give you the best Clothing at a fair margin of profit. That's why we enjoy such a large share of your patronage. We feel, and know by experience, that the people of the community have brains and sense enough to know good Clothing when they see it, and generally buy from us, when we advertise Manhattan fancy Shirts for \$1.25, while the other fellow wants \$1.50. When we advertise a blue black, 24-oz., all wool, Clay worsted, fast color, finely tailored Suit for \$10, you have a good idea when others show you a Clay Worsteds Suit as thin as tissue paper. The trouble is not with the people; it's with the advertiser, who either can't advertise his goods properly, so people can have some idea as to their value, or he is too afraid of his competitor to name values on staple and well-known merchandise, that the people know, and especially if they are of standard quality. We are glad of any opportunity you may give us to show you our Clothing and tell you of its intrinsic value and put you a price that means so much to you.
